Top 5 in East China

Team Captain · Wenzhou-Kean University · Report score 77

- **Business and industry analysis**

Evaluated the subject company's business model, competitive environment, revenue structure, cost base, margins and capital expenditure drivers.

- **Integrated financial model**

Participated in building income statement, balance sheet and cash flow forecasts, linking operating assumptions to free cash flow generation.

- **Valuation and risk**

Applied FCFF/DCF and comparable-company methods, then tested revenue growth, margin, WACC and terminal-growth assumptions through sensitivity analysis.

- **Leadership contribution**

Coordinated the team's research workflow, consolidated conclusions and supported the final investment recommendation and presentation narrative.
